Later, Mr. Coleman lived in the home on Evergreen Avenue now occupied by Frank. Other family members include a sister, Pauline Glenn and a brother, Andrew, both of Orlando.

Social Security ??? & Answers

Send your questions to: Questions and Answers, Social Security Office, p. o. Box 2496, Lynchburg, Virginia, 24501.

Q. What should a man or woman, regardless of age, do if his income is cut off or greatly reduced because of disability.?

A. If it appears that the individual would be unable to work again for at least a year, but he had worked under social security 5 out of 10 years (even less time if under age 31) he should get in touch with the social security office and file for disability benefits.

Q. Are benefits paid to a man over 65 if he is not retired but is unemployed for a few months because there is no work available for him?

A. A man or woman, age 62 or older, who is "insured" under social security can receive benefits for any month in which he is not earning wages of over $140 and is not performing substantial services in self-employment.

Q. If a student beneficiary worked only in June, July and August, earning $400 each month, would he lost any of his social security benefits because he earned over $140 a month?

A. No, he would not. All beneficiaries are allowed to earn $1680 in a taxable year, regardless of how much they earn in any month, and not have any social security payments withheld.

Q. If the mother of two young children becomes entitled to disability benefits would her children also be entitled to benefits, even if their father is supporting them?

A. Yes. If a mother becomes entitled to disability benefits the children would also be entitled to child's Benefit regardless of any other income the children might have.
